

# ABOUT US

The European Forum of Technical and Vocational Education and Training (EfVET) is an EU nonprofit umbrella organisation, established in 1991, with the purpose of building a network of TVET stakeholders, to secure a voice across Europe in European policymaking and practice arenas.

## Strategic Model

### Network Management

- Events & Conferences
- Partnerships with EU institutions, civil society, the private sector, international organisations
- Thematic Teams / Working Groups

### Advocacy & Policy

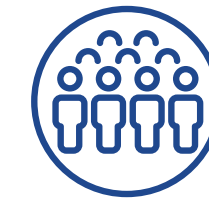

- Members' representation in working groups and meetings with EU institutions
- Policy papers and reports
- Outreach actions

### EU-funded projects

- Best practices and peer-learning exchanges
- Stakeholder engagement
- Dissemination and communication

### Capacity-building

- Training activities (webinars, MOOCs, other)
- Mobility and study visit opportunities
- Technical support and advice

# Key Drivers and Challenges

---

**The partnership is the project:** The call funds partnerships that strengthen VET providers and connect training to labour-market needs and national development strategies.

**Priority sectors:** Proposals gain priority by addressing at least one Global Gateway sector: renewable energy, agri-food value chains, digital, or transport infrastructure.

**Societal Role of TVET:** TVET must be repositioned as a catalyst towards sustainable economies and their competitiveness, a vector of social justice, and a pathway of choice for young people. It must stand not only for economic competitiveness but also for human rights, gender equality, and social justice.

## Key Objectives of the CB-VET

---

1. Build the capacity of VET providers to strengthen public-private cooperation for demand-oriented, opportunity-driven VET.
2. Improve the quality and responsiveness of VET to socio-economic developments, so that skills provision is relevant to the labour market.
3. Align VET provision with local, regional and national development strategies.
